Sawabona Africa's project melted enough hearts that we received enough votes in the Otto campaign to donate clothes and donate to a charity of choice. We won 500€ towards the PYMA classroom. We have to wait out until the next round of voting to commence in August. Keep collecting clothes and save them for August.

PYMA learners love our new classroom

It is hard to believe that PYMA only had 1 classroom. The new classroom is always buzzing with learning activity. This new classroom has improved the quality of the educational support offered, they had so many registrations this year, that there is now a waiting list.

Bright Start also has a waiting list.. we would love to give 3 more learners a chance at a brighter future.
